DECLARATION OF FOOD SUITABILITY

Raw materials used for manufacturing our "SKANDIA C" Curtain Coating System (Series codes 151, 251), are in accordance with the Italian Law D.M. 24 September 1996, n°572, updating D.M. 26 April 1993, n°220, and D.M. 21 March 1973 ("Hygienic regulations of packaging, containers, utensils, intended to come into contact with foodstuff"), fulfilling the EEC Directives 82/711, 85/572, 90/128, 92/39, 95/3, 2002/72 concerning the food suitability, and the FDA N°177 ("Indirect Food Additives: Polymers), subpart B, paragraph 177.1550.

These finishes, when applied correctly to Akzo Nobel Technical Specifications and Procedures, produce a product which is suitable for use in contact with food, under normal use conditions.

The above declared conformity doesn't give any guarantee on the food suitability of the finished item which is influenced by the handling and the coating procedure followed by the final applicator, and which is out of Akzo Nobel control.

Akzo Nobel doesn't take any responsibility with regard to this matter.

AKZO NOBEL COATINGS S.p.A. – Non Stick Div.
